On March 26 Nancy/ Dr. Beck participated in a global business summit in Brussels. The summit was focused on chemicals management for the future. Nancy participated, along with the Executive Director of the EU Chemicals Agency, on a keynote panel which discussed both the EU and US approach to regulating new chemicals. Nancy also participated on a second panel looking at the future of SAICM post 2020.

In addition to the story about Jeff Morris being out west this week meeting with the tribes on toxics, next weeks weekly report should also include a short blurb on Nancy's work in Brussels. Nancy maybe you could send to us a couple of sentences or I'm sure we could pull it from something.

Also Mary can provide two sentences on my being at the ABA Talking on PFAS
